Colombia Phone Number Enables Global Call Forwarding

Although Colombia has an advanced telecom sector, none of the Colombia telephone companies permit call forwarding beyond the Colombia border.

This means if you own or want to own a Colombia phone number and wish to have Colombia calls divert to another country, you cannot do so using the Colombian in-country telephone service provider (PTT) issued phone numbers.

Our service provides a solution to the international call forwarding requirement from Colombia and assists you to own a Colombia phone number with global call forwarding capabilities.
