SIMPLE CALLS

Send your call guests a Toll Free or local number that works from their country. You'll receive a list of over 150 global access numbers immediately upon account activation.

REMOTE CALLS

Add participants to your call when your attendee is located in a non toll-free country (meaning there is no toll-free access number in their country). The dial-out feature is **included** and it's easy to use.

MORE OPTIONS

Access to your conference call can be done **without dialing an access number**. Use the free included Connect App with your smartphone, PC or Mac. Command our global bridge to call your phone instead of dialing in.
