Send the Philippines access number to your associates along with the time and date of your planned international conference call.

This service enables you to connect a group call even if your call guests are located in multiple countries.

Global access numbers for conference calls between U.S., Philippines, Japan, Hong Kong, Netherlands, China Germany & Singapore enable meeting everyone on the same call

For example, your office in the Philippines can host a conference call with a customer in Hong Kong, your IT department in India and your invitees in the U.S. or any country.

Host multi-country conference calls. Our conferencing bridge is located in the U.S. but the chairperson can initiate a conference call from any country. See the Expanded Global Conferencing Service here.
